Recording on the PSR S970 and S770

Make sure the keyboard is turned ON, that you have the style selected, the voices that you want to play in the slots R1 & R2. You can have various voices in the registration buttons so that you can change the voices as you play along. Turn on the Accompaniment button, the Into 2 button and the Auto Start button.

Press this button to start recording_ It will go RED. PLAY

The recording will start as soon as you play a chord on the left hand. When you have finished recording press the STOP button

This is the screen you will get after you have pressed the STOP button. Now press the Song button **A**. Go to the menu 1 and press SAVE.
